

## Curriculum Vitae

### Taehee Hwang

Department of Geography  
Indiana University  
Student Building 120  
701 E. Kirkwood Avenue  
Bloomington, IN 47405-7100

Phone: (812) 856-2846  
Email: [taehee@indiana.edu](mailto:taehee@indiana.edu)

Homepage: <https://hwanglab.weebly.com/>

#### Education

Ph.D. Geography, University of North Carolina at Chapel Hill, 2010  
Master City Planning (*Summa Cum Laude*), Seoul National University, South Korea, 2004  
B.S. Microbiology, Seoul National University, South Korea, 2000

#### Research Interests

- Spatial and temporal patterns of vegetation under topography and hydroclimate setting
- Vulnerability of freshwater resources by the combined impacts of climate and land-use/land-cover changes
- Risk assessment of hydrologic extremes: droughts and landslides

#### Employment

*Assistant Professor*, Department of Geography, Indiana University Bloomington, 2014-present  
*Adjunct Faculty*, Department of Earth and Atmospheric Sciences, Indiana University Bloomington, 2019-present  
*Associate Director*, Center for the Analysis of Social-Ecological Landscapes (CASEL), Indiana University Bloomington, 2015-present  
*Post-doctoral Fellow*, Institute for the Environment, University of North Carolina at Chapel Hill, 2010-2014

#### Peer-reviewed Journal Articles (underline represents postdoctoral or graduate advisees)

- Zhang, Y., Dannenberg, M.P., **Hwang, T.**, Song, C. 2019. El Niño–Southern Oscillation-induced variability of terrestrial gross primary production during the satellite era. *Journal of Geophysical Research–Biogeosciences*, 124 (in press)
- Lin, L., Band, L.E., Vose, J.M., **Hwang, T.**, Miniati, C.F., Bolstad, P.V. 2019. Ecosystem processes at the watershed scale: Influence of flowpath patterns of canopy ecophysiology on emergent catchment water and carbon cycling. *Ecohydrology*, e2093.
- Hwang, T.**, Martin, K.L., Vose, J.M., Wear, D., Miles, B., Kim, Y., Band, L.E. 2018. Non-stationary hydrologic behavior in forested watersheds is mediated by climate-induced changes in growing season length and subsequent vegetation growth. *Water Resources Research*, 54, 5359-5375. (Water Resources Research Editors' Choice Award in 2019) (Featured in [2018 USDA Research Highlights](#))
- Kim, J., **Hwang, T.**, Yang, Y., Schaaf, C.L., Boose, E., Munger, W.J. 2018. Warming-induced earlier greenup leads to reduced stream discharge in a temperate mixed forest catchment. *Journal of Geophysical Research–Biogeosciences*, 123, 1960-1975.
- Dannenberg, M., Wise, E., Janko, M., **Hwang, T.**, Smith, W. 2018. Atmospheric teleconnection influence on North American land surface phenology. *Environmental Research Letters*, 13, 034029.

### External Funding

- *National Aeronautics and Space Administration (NASA) Carbon Cycle Science* program, “Impacts of Climate and Land-Use/Land-Cover Change on Gross and Net Primary Productivity in the Southeastern USA”, 2017-2021, Institutional Principal Investigator (\$919,212 total, \$436,669 to IU)
- *National Science Foundation (NSF) Long-Term Ecological Research (LTER) program*, “Coweeta LTER VIIb - The Interacting Effects of Hydroclimate Variability and Human Landscape Modification in the Southern Appalachian Mountains”, 2016-2019, Co-Principal Investigator (\$1.3M total, \$57,589 to IU)
- *USDA Forest Service*, “Modeling the ecohydrological interactions among land use change, climate variability, and forest condition in the Yadkin-Pee Dee river basin”, 2014-2019, Principal Investigator (\$100,000 to IU)
- *USDA Forest Service, Oak Ridge Institute for Science and Education (ORISE) Post-doctoral fellowship*, 2014, (\$70,000 per year) (relinquish due to the other tenured-track offer)

## Internal Funding

- [Indiana University Grand Challenge Initiative](#) *Prepared for Environmental Change*, “River and Landscape Modeling”, 2018-2022, co-Principal Investigator, (\$138,502 in Year 2)
- [Indiana University Grand Challenge Initiative](#) *Prepared for Environmental Change*, “Evaluating hydrologic effects of *Paulownia tomentosa* invasion following wildfire”, 2017-2022, Principal Investigator (\$70,643 to PI until Year 4)

## Invited Talks or Workshops

- Hwang, T.**, Band, L.E., Miniati, C.F., Kneopp, J.D. Vose, J.M, Knoepp, J.D., Song, C., Bolstad, P.V. 2019. Canopy density patterns at the catchment scale homogenize with decreased hydrologic downslope subsidy. *12<sup>th</sup> North American Forest Ecology Workshop*, Flagstaff, AZ, USA.
- Hwang, T.** 2019. Ecohydrological processes at the watershed scale: linking vegetation dynamics with watershed-scale hydrologic behavior, *Department of Civil and Environmental Engineering*, Yonsei University, Seoul, Korea.
- Hwang, T.** 2019. Capturing species-level drought responses in a temperate deciduous forest using ratios of photochemical reflectance indices between sunlit and shaded canopies, *College of Agriculture and Life Sciences*, Seoul National University, Seoul, Korea.
- Hwang, T.** 2019. Ecohydrological processes at the watershed scale: linking vegetation dynamics with watershed-scale hydrologic behavior, *School of Civil, Architectural, and Environmental Engineering*, Sungkyunkwan University, Suwon, Korea.
- Hwang, T.** 2019. Ecohydrological processes at the watershed scale: linking vegetation dynamics with watershed-scale hydrologic behavior, *Department of Environmental Sciences*, Kangwon National University, Chuncheon, Korea.
- Hwang, T.**, Band, L.E., Miniati, C.F., Kneopp, J.D. Vose, J.M, Song, C., Bolstad, P.V. 2018. Warming temperature homogenizes landscape vegetation patterns at the catchment scale. *6<sup>th</sup> Interagency Conference on Research in the Watersheds*, Shepherdstown, WV, USA.
- Hwang, T.** 2017. Ecohydrological processes at the watershed scale: Co-evolution of hydrology, forest canopy, and geomorphic systems. *Department of Earth Sciences*, Indiana University Purdue University at Indianapolis (IUPUI), IN, USA.
- Hwang, T.** 2017. (*Workshop invitee*) Ecohydrological processes at the watershed scale: linking vegetation dynamics with watershed-scale hydrologic behavior, *Joseph W. Jones Ecological Research Center*, Newton, GA, USA.
- Hwang, T.** 2017. Ecosystem processes at the watershed scale: Co-evolution of hydrology, forest canopy, and geomorphic systems. *Department of Geography*, University of Wisconsin, Madison, WI, USA.
- Hwang, T.** 2016. Simulating vegetation controls on hurricane-induced shallow landslides with a distributed ecohydrological model. *Department of Geological Sciences*, Indiana University Bloomington, IN, USA.
- Hwang, T.** 2016. (*Workshop invitee*); Hydrologic connectivity: Bridging terrestrial and aquatic ecosystems in a karst landscape, *Joseph W. Jones Ecological Research Center*, Newton, GA, USA.
- Hwang, T.** 2013. Ecosystem processes at the watershed scale: Co-evolution of hydrology, forest canopy, and geomorphic systems, *Curriculum for the Environment & Ecology*, University of North Carolina at Chapel Hill, NC, USA.
- Hwang, T.**, Band, L.E., Song, C., Bolstad, P.V., Vose, J.M., Love, J., Ford, C.R. 2013. (*Symposium Invitee*) Hydroclimatic controls on leaf senescence in a humid temperate broadleaf forest, *The US-International Association for Landscape Ecology (IALE) Annual Symposium*, Austin, TX, USA.
- Hwang, T.** 2013. Ecosystem processes at the watershed scale: Co-evolution of hydrology, forest canopy, and geomorphic systems, *Department of Environmental, Earth, and Ocean Sciences*, University of Massachusetts Boston, MA, USA.

- Hwang, T.** 2013. Ecosystem processes at the watershed scale: Co-evolution of hydrology, forest canopy, and geomorphic systems, *Department of Geography*, University of Alabama, AL, USA.
- Hwang, T., Band, L.E., Vose, J.M.** 2012. Ecosystem processes at the watershed scale: Co-evolution of hydrology, forest canopy, and geomorphic systems, *CUAHSI 3<sup>rd</sup> Biennial Colloquium on Hydrologic Science and Engineering*, Boulder, CO, USA.
- Hwang, T.** 2012. Ecosystem processes at the watershed scale: Co-evolution of hydrology, forest canopy, and geomorphic systems, *Department of Earth and Environmental Sciences*, University of Waterloo, ON, Canada.
- Hwang, T., Band, L.E., Song, C., Bolstad, P.V.** 2011. Integration of real-time vegetation dynamics into a distributed ecohydrological model by fusing multi-temporal MODIS and Landsat NDVI, *AGU Fall Meeting*, San Francisco, CA, USA.
- Hwang, T.** 2010. Integration of spatio-temporal vegetation dynamics into a distributed ecohydrological model: Application to optimality theory and real-time watershed simulations, *Graduate School of Environmental Studies*, Seoul National University, Seoul, Korea.

### Dissertation and Thesis

- Hwang, T.** 2010. “Integration of spatio-temporal vegetation dynamics into a distributed ecohydrological model: Application to optimality theory and real-time watershed simulations.” A dissertation for fulfillment of a Doctor of Philosophy degree in the Department of Geography, University of North Carolina at Chapel Hill., Supervisor. Dr. Lawrence E. Band.
- Hwang, T.** 2004. “Spatial analysis of carbon and water processes with RHESSys model in the Gwangneung experimental forest, Korea.” A thesis for fulfillment of a Masters of City Planning degree in the Graduate School of Environmental Studies, Seoul National University, Supervisor. Dr. Dowon Lee.

### Awards and Honors

- Water Resources Research Editors’ Choice Award* – given to about 1% of published articles each year (2019)
- USDA Forest Service, Oak Ridge Institute for Science and Education (ORISE) Post-doctoral fellowship*, (relinquish due to the other tenured-track offer) (\$70,000 per year) (2014)
- Featured Article of Editor’s Highlight – Water Resources Research* (2012)
- Scholars for Tomorrow Fellowship*, University of North Carolina at Chapel Hill (2007) (\$5,000)
- Student Travel Grant*, Binghamton Geomorphology Symposium (2005)
- Graduated **Summa Cum Laude** (2004)
- Best Student Presentation Award*, Korea-Japan Joint Symposium of Limnology (2004)
- Graduate School Fellowship for Top Graduate Student*, Graduate School of Environmental Studies, Seoul National University (three times – total about \$6,000)
- LG Electronics Student Fellowship*, Department of Microbiology, Seoul National University (about \$1,000)
- Department Fellowships*, Department of Microbiology, Seoul National University (totals \$3,000)

### Courses Taught

- Indiana University Bloomington
  - Mapping Our World (GEOG 237) - fall 2014, 2018
  - Environmental Remote Sensing (GEOG 336/535) - fall 2015, 2016, 2017
  - Geographic Information System (GEOG 338/538) - fall 2015
  - Advanced Remote Sensing (GEOG 436/536) - spring 2015, 2016, 2017, 2018, 2019
  - GIS and Environmental Analyses (GEOG 439/639) - fall 2017
  - Ecohydrology (GEOG 467/567) - fall 2016, 2018
- University of North Carolina at Chapel Hill (UNC)
  - Introduction to Watershed Systems (GEOG 441) - fall 2011
- Main Lecturer of short workshop or boot camp
  - RHESSys ecohydrological model bootcamps - 2009, 2010, 2013, and 2015
  - LiDAR workshop at CASEL lab in Indiana University Bloomington - 2017

### Post-doctoral Research Associates and Graduate Students Supervision

- Mahsa Khodae (PhD in Geography, IU): 2017-current
- Marika Lapham (MS in Geography, IU): 2017-current
- Sasha Siani (PhD in Geography, IU, co-advisee): 2018-current
- David Massey (PhD in Geography, IU, co-advisee): 2015-current

- Mallory Barnes (Post-doctoral fellow, IU, co-advisee): 2018-2019
- Jihyun Kim (Post-doctoral fellow, IU): 2015-2018
- Anika Tabassaum (MS in Geography, IU, co-advisee): graduated 2017
- Committee members
  - Samapriya Roy (PhD in Geography, IU): 2015-current
  - Elena Solohin (PhD in SPEA, IU - Minor advisee): 2016-current
  - Anas Rabie (PhD in Geology, IU - Minor advisee): 2016-current
  - Jeff Valenza (PhD in Geology, IU - Minor advisee): 2017-current
  - Mackenzie Cory (PhD in Anthropology, IU - Minor advisee): 2017-current
  - Sander Denham (PhD in SPEA, IU): 2017-current
  - Igor Ogashawara (PhD in Earth Sciences, IUPUI): 2017-current
  - Meghan Engh (PhD in Geography, IU): 2019-current
  - Dan Myers (PhD in Geography, IU): 2019-current
  - Michelle VanCompernelle (MS in Geography, IU): graduated 2018
  - Koong Li (PhD in SPEA, IU): graduated 2018
  - Trevis Matheus (PhD in Geography, IU): graduated 2017
  - Hamed Gholizadeh (PhD in Geography, IU): graduated 2016
  - William Burke (MS in Geography, IU): graduated 2016
  - Jihyun Kim (PhD in Geography, Boston University): graduated 2015

### Professional Service

- Editorial Board
  - Frontiers in Forest and Global Change* (Review Editor): 2018-current
- Served as a reviewer more than 50 times (\*frequent reviewer)
  - Water Resources Research\**, *Remote Sensing of Environment\**, *Journal of Geophysical Research – Biogeosciences\**, *Ecological Applications*, *Geophysical Research Letters*, *Hydrological Processes*, *Advances in Water Resources*, *Ecohydrology*, *Agricultural and Forest Meteorology*, *Hydrology and Earth System Sciences*, *Environmental Modeling and Software*, *Science of the Total Environment*, *Environmental Research Letters*, *Remote Sensing*, *GIScience & Remote Sensing*, *One book chapter* (Cambridge University Press)
- Served as an ad-hoc reviewer for proposals
  - NSF Frontier Research in Earth Science (FRES) program* (2019)
  - NSF Geography and Spatial Science (GSS) program* (2015, 2016, and 2018)
  - NSF Hydrology program* (2016 and 2017)
  - National Geographic Information Institute (Korea), National Atlas of Korea* (2017)
  - Ball State University ASPiRE Grants program* (2015)
  - Environmental Protection Agency* (2013)
  - Georgia Water Resources Institute* (2012)
- Served as a reviewer for student paper awards and travel grants
  - Korean-American Geospatial and Environmental Sciences (KAGES)* (2015-2019)
  - AGU Outstanding Student Paper Award* (judge) (2012, 2013, 2018)
  - AAG Student Paper Competition, Biogeography Specialty Group* (judge) (2016)
- Session organizer/convenor
  - ‘Advancing Science through Long-Term Monitoring, Observation, and Experimentation in Catchment, Critical Zone, and Ecosystem Studies’ at the *American Geophysical Union (AGU) Meeting*, 2019, San Francisco, CA (*in progress*)
  - ‘Climate Change at Long-Term Ecological Research (LTER) Sites’ at the *LTER All Scientists’ Meeting*, 2018, Asilomar, CA
  - ‘Using Long-term Data on Assessing Extreme Climatic Events Effects on Watershed Processes, Functions

*and Management Practices*' at the 6<sup>th</sup> Interagency Conference on Research in the Watersheds (ICRW), 2018, West Virginia, USA

*'Detection of drought-induced changes in terrestrial ecosystems using remote sensing data I & II'* at the *Association of American Geographers (AAG) Meeting*, 2017, Boston, MA, USA

*'Changing dynamics of complex eco-hydrological system'* at the *American Geophysical Union Fall Meeting*, 2010, San Francisco, CA, USA

### **Campus and Departmental Service**

Bachelor of Science in Environmental Science (BSES) curriculum committee, IU Bloomington (2018-present)

New Master's in GIS (MGIS) committee, IU Geography (2017-present)

Department salary committee, IU Geography (2018)

Geography colloquium committee (co-chair), IU Geography (2017-present)

Department search committee, IU Geography (2017)

*Associate Director*, Center for the Analysis of Social-Ecological Landscapes (CASEL), IU (2015-present)

Advisory board in undergraduate enrollment committee, IU Geography (2014-2016)

Advisory board in environmental quality and land use group, IU Bloomington (2014-2016)

IU GIS day planning committee, IU Bloomington (2014-2016)

### **Professional Memberships**

*American Geophysical Union (AGU)*

*Association of American Geographers (AAG)*

*Ecological Society of America (ESA)*

*US Regional Association of the International Association for Landscape Ecology (US-IALE)*

*Korean-American Geospatial and Environmental Sciences (KAGES)*
